	5 gallon	\$8.25
	15 gallon	\$25.00

**PAYMENT MUST BE MADE IN THE FORM OF CASH OR CHECKS,
WE CAN NOT ACCEPT CREDIT CARDS**

Qualifications for the Purchase of Tree Seedlings

The purpose of this program is to encourage private landowners to make conservation plantings for windbreaks, shelterbelts, erosion control and food or shelter for wildlife along with promoting conservation of important resources such as water. This program isn't necessarily intended to produce stock for landscaping private homes. In order to reach these goals purchasers must meet the following qualifications:

The plants must be used for conservation purposes. Typical uses include windbreaks, shelterbelts, woodlots, erosion control, and creating wildlife habitats.

Technical Assistance

Information on the establishment and care of windbreaks can be obtained from the local offices of the Cooperative Extension Service in Las Vegas (702) 222-3130, Pahrump (775) 727-5532, or Logandale 1 -702-397-2604. The Nevada Division of Forestry may also provide assistance (702) 486-5123.

Nursery Sales Hours

The Las Vegas Nursery is open year round for sales of plant materials to the public.

HOURS: 9:00am-3:00pm Tuesday – Friday

Information on Nursery Stock

Nursery stock is grown in 1-gallon plastic containers for public sale. However at certain times 5- and 15- gallon stock is also available. The plants will vary in size from 12' to 36' in height, depending on the species and the time of purchase. Plants should be kept moist and in a shady place to keep them in good condition if they are not immediately planted.

We would also appreciate the return of the empty plastic containers, if possible. Recycling these containers will conserve resources as well as hold the nursery production cost down which will result in fewer price increases.
