

Common Name: Common olive

Scientific Name: *Olea europa*

This tree, growing in a front yard in Las Vegas, was nominated by Matt Koepnick in 2008.

It has a height of 38 feet, a circumference of 128 inches, and a trunk diameter of 3 feet. Its spread is 44 feet, for a total of 175 points.

The olive tree, native to the eastern Mediterranean and adjoining parts of Europe, Africa and Asia, has two extremely useful and popular products, olives and olive oil.
