

# Nevada DIVISION of FORESTRY

*We need Foresters, Rangeland and Natural Resource Managers to join our team and help us!*

*NDF and NV Energy have formed a partnership to:*

- Restore wildland areas impacted by wildfires
- Prevent wildfires, protect communities and infrastructure through vegetation management
- Eliminate impacts to energy infrastructure from ROW vegetation or advancing wildfires
- Perform long-term planning to protect wildlands and communities from wildfires
- Employ foresters, range and natural resource managers (Forester IIIs) to assist with these tasks

*If you are interested in this employment opportunity, please send the following information to the location contacts as soon as possible*

- Resume with references and preferred work locations of those listed below.
- Written answers for the following:
  1. Describe your experience developing vegetation and fuel management strategies and plans for Great Basin ecosystems. List the vegetation and fuel type(s) and practices where plans were developed and treatments were prescribed.
  2. Describe your experience evaluating ecological sites and developing appropriate seed mixes.
  3. Describe your knowledge of and experience with regional state and federal threatened and endangered species.
  4. Describe your experience with coordinating, obtaining proper permits, clearances, and approvals (incl. State Historical Preservation Office/Archeological Surveys) as required to implement and manage vegetation management prescriptions in cooperation with federal, corporate, and private landowners
  5. Describe your experience using geographic information system (GIS), planning, reporting and project management technologies and software to assist with natural resource management.
  6. Describe you field experience, particularly work that involved irregular schedules, working in remote locations with little supervisory oversight.
  7. Describe your knowledge of and experience with applying herbicides in vegetation management.
  8. Describe your experience working in the field of fire management (fire rehabilitation, prescribed fire, wildland fire, etc.).
  9. Describe your experience with performing administrative duties such as equipment and supplies purchasing, expenditure tracking, budget tracking, reporting, planning, inspections, evaluations, coordination meetings, and vehicle maintenance.
