

## Nevada Division of Forestry Petition to List or De-List a Critically Endangered Species

### Authority for Listing or De-Listing

Per NRS 527.270, a species or subspecies of native flora shall be regarded as threatened with extinction when the State Forester/Firewarden, after consultation with competent authorities, determines that its existence is endangered, and its survival requires assistance because of overexploitation, disease, or other factors or because its habitat is threatened with destruction, drastic modification, or severe curtailment. Division of Forestry places any species declared to be threatened with extinction on the list of fully protected species ([NAC 527.010](#)), and no member of its kind may be removed or destroyed at any time by any means except under special permit issued by the State Forester/Firewarden.

### Terms for Submitting a Petition

Per [NAC 527.550](#), any interested person may petition an agency requesting the adoption, filing, amendment, or repeal of any regulation and shall accompany the petition with relevant data, views, and arguments. In this case, a petition may be submitted to the Division of Forestry to list or de-list a plant from the list of fully protected species. Upon submission of such a petition, the agency shall within 30 days either deny the petition in writing, stating its reasons, or initiate regulation-making proceedings.

### Notifications

Per [NAC 527.560](#), within 30 days after a petition is submitted, the State Forester will notify the petitioner in writing of his or her decision to deny the petition and the reasons for the denial; or initiate the adoption, amendment or repeal of the regulation in accordance with the procedures set forth in [chapter 233B](#) of NRS.
